巣材を啜るホウジロ♀

A male Japanese Sparrow (Houjuro) is perched on a dry, brown branch. The bird has a distinctive black and white facial pattern, with a white forehead and a black stripe through the eye. Its body is covered in brown and white streaked feathers. The background is a soft-focus field of green and brown grasses.

ススキにとまるホウジロ♂

A small bird, likely a winter sparrow, is perched on a thin, vertical reed stem. The bird has a brownish-orange body with darker streaks on its wings and back. Its head is turned slightly to the right. The background is a soft, out-of-focus field of dry reeds and grasses, creating a warm, golden-brown atmosphere. The lighting is soft and directional, highlighting the bird's feathers and the texture of the reeds.
