渡り途中のコマドリ♂

A male Komadri bird is perched on the edge of a tree stump. The bird has a bright orange-red head and neck, a dark blue eye, and a black beak. Its body is a mix of brown and grey, with a lighter greyish-brown belly. The background is a soft, out-of-focus natural setting with green and brown tones. The tree stump it is perched on is dark brown and shows signs of weathering and moss.
